БІБЛІОГРАФІЯ ПРАЦЬ ПРО МИХАЙЛА ГРУШЕВСЬКОГО

Вступ

З нагоди відзначення 100-ліття народження Михайла Грушевського в 1966 році, автор цих рядків опрацював першу обширну бібліографію праць, присвячених життю і творчості історика. Цього року відзначуємо 50-ліття смерті Михайла Сергіевича і ми вирішили видати новий бібліографічний довідник, який, на нашу думку, значно поширює джерельно-бібліографічну базу Грушевськознавства.

Зложити повну бібліографію праць про М. Грушевського майже неможливо. Це відноситься зокрема до публіцистичних праць про Михайла Сергіевича, що друкувалися в різних українських і неукраїнських часописах і журналах, які сьогодні являються бібліографічною рідкістю. Це саме можна сказати про рецензії на праці вченого. Проте навіть ця *вибрана* бібліографія причиниться до повнішого вивчення діяльності Михайла Грушевського.

На цьому місці бажаємо бодай коротко обговорити бібліографічну типологію праць про Михайла Грушевського. Зasadничо публікації (бібліографічні записи) охоплюють такі категорії: 1) бібліографії, 2) джерельні матеріали, 3) книжкові видання, 4) статті, 5) мемуаристику, 6) енциклопедичні матеріали, 7) некрологи, 8) рецензії і бібліографічні нотатки. Усі ці бібліографічні категорії творять основу для інвентаризації, класифікації і аналізи публікацій присвячених М. Грушевському.

Перша категорія бібліографії охоплює дві частини: бібліографію бібліографій, і бібліографічні довідники видані окремо, або у формі бібліографічних статей і бібліографій, що друкувалися в різних серійних виданнях. Джерельні матеріали творять окрему бібліографічну клясу, яка включає друковані і недруковані архівні і джерельні матеріали М. Грушевського і про нього. На увазі маємо епістолярну творчість, автобіографічні матеріали, щоденники, записники, офіційну джерельну документацію і інші переджерельні матеріали. Книжкові видання включають монографічні наукові дослідження і популярні нариси, які з'явилися, як окремі видання. Ця категорія також включає памфлети і відбитки з праць про Грушевського, які друкувалися в серійних і інших публікаціях — всі вони творять окрему бібліографію.

фічну одиницю. Наступна категорія «статті» включає наукові і публіцистичні статті, що друкувалися в журналах, збірниках, часописах і інших серійних виданнях. Мемуаристика включає спогади, які відносяться безпосередньо або посередньо до діяльності М. Грушевського. Вони друкувалися окремими книжковими виданнями, або як статті в різних виданнях. Енциклопедичні гасла друковані в українських і неукраїнських енциклопедіях та в енциклопедичних словниках і довідниках віддзеркалюють Грушевській у довідковій літературі. Некрологи про Грушевського з'явилися в наукових журналах, а також в українській пресі та інших періодичних виданнях. Рецензії на друковані праці Грушевського становлять окрему ділянку бібліографічного досліду. Тематично вони доповнюють дослідження творчості вченого, а також служать показником популярності або непополярності друкованих праць Михайла Сергійовича серед українських і неукраїнських рецензентів, які здебільшого репрезентували відповідні наукові або суспільно-політичні круги. Рецензії друкувалися в наукових і ненаукових серійних виданнях і в пресі.

Подана бібліографічна класифікація праць Михайла Грушевського охоплює усі головніші категорії друкованих праць, які заслуговують на докладне вивчення.

Характер нашої бібліографії є селективний. Зокрема вона не охоплює усіх публіцистичних статей про життя і творчість Грушевського, які друкувалися в українських газетах і деяких журналах до 1919 року, а також в пізніших роках, зокрема публікації в советській пресі. Також доволі важко було перевірити і зареєструвати усю мемуарну літературу, яка є розкинена по різних виданнях. В бібліографії не включено рецензії на праці М. Грушевського, які вимагають окремого бібліографічного дослідження. Не зважаючи на ці прогалини, віримо, що цей бібліографічний покажчик, причиниться до кращого вивчення М. Грушевського.

Ми вирішили друкувати бібліографію в англійській транслітерації і тим самим зробити її доступною неукраїнському досліднику. Назви друкованих праць в слов'янських мовах також переложено на англійську мову. Цей бібліографічний довідник складається з таких частин:

- I. *Бібліографія бібліографій* — тут включено два розділи: 1) книжки і статті, і 2) бібліотечні каталоги і національні бібліографії.
- II. *Бібліографія праць про М. Грушевського.*
Це є найобширніший розділ бібліографії, який включає наукові дослідження, мемуаристичні праці, і деякі публіцистичні статті, а також некрологи в наукових виданнях.

III. Енциклопедичні матеріали:

Енциклопедичні гасла про М. Грушевського в українських і чужомовних енциклопедіях і енциклопедичних словниках.

IV. Спеціальні серійні видання присвячені М. Грушевському.

Список окремих випусків журналів і збірників присвячених М. Грушевському з нагоди різних ювілейних дат.

V. Друковані першоджерела.

Цей розділ складається з двох частин: 1) автобіографічні праці, і 2) видані джерельні матеріали.

VI. Окремі журнали з джерельними матеріалами.

Ця частина бібліографії реєструє журнали основані або редактовані М. Грушевським, в яких містяться його праці, а також важливі джерельні матеріали про його діяльність

Бібліографічний опис включених матеріалів оснований на de visu принципі. Вийняток становлять лише декілька бібліографічних одиниць, які ми не мали змоги безпосередньо перевірити. Бібліографічні одиниці в кожному розділі покажчика уложені в поазбучному порядку.

В майбутньому плануємо періодично містити продовження цієї бібліографії.
